LIGHT POLE

Technology Characteristics

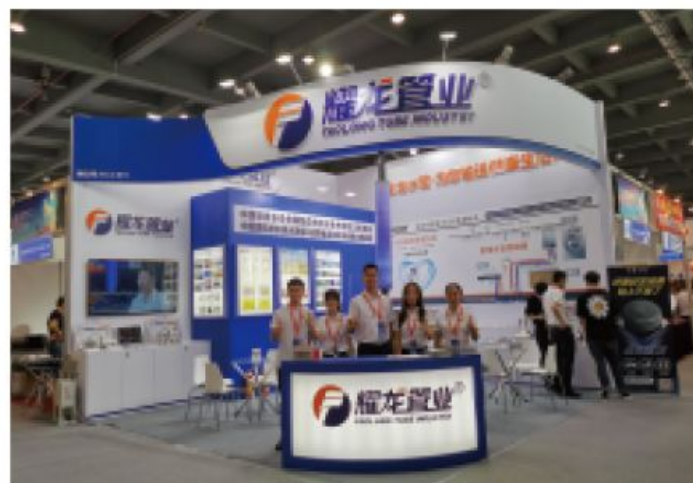

Our Team And Exhibition

Large aluminum alloy spinning equipment

12m bending machine

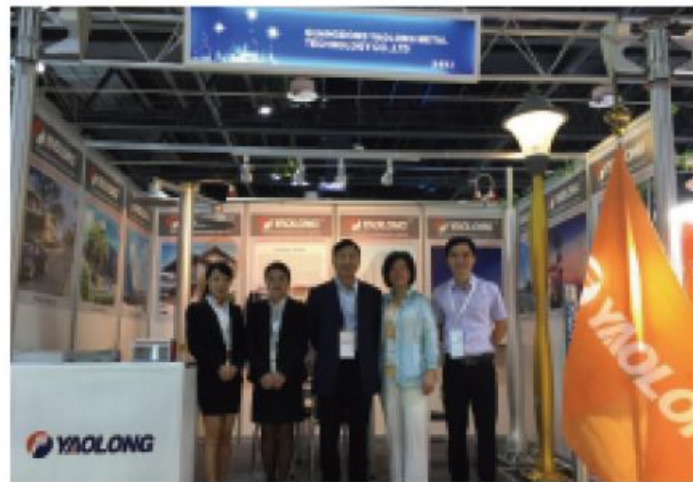

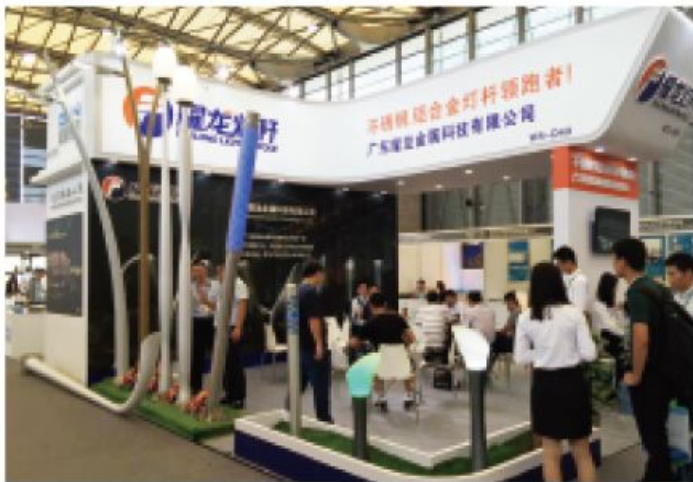

Laser cutting robot

Characteristics of Aluminium Light Poles

We use the aluminum alloy seamless tube as the raw material.Yaolong Aluminium light pole,produced by advanced CNC spinning equipment from German.The light poles are of high quality and good finishing that will never rust and have no welded joints.Processed by anodizing treatment,the surface of poles arevery smooth.Yaolong light poles are very popular in developed countries like Europe and American countries

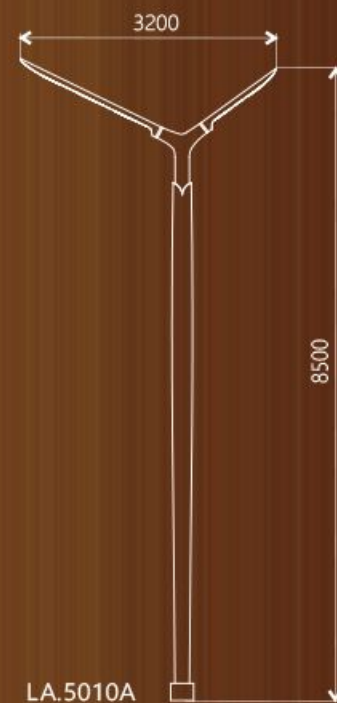

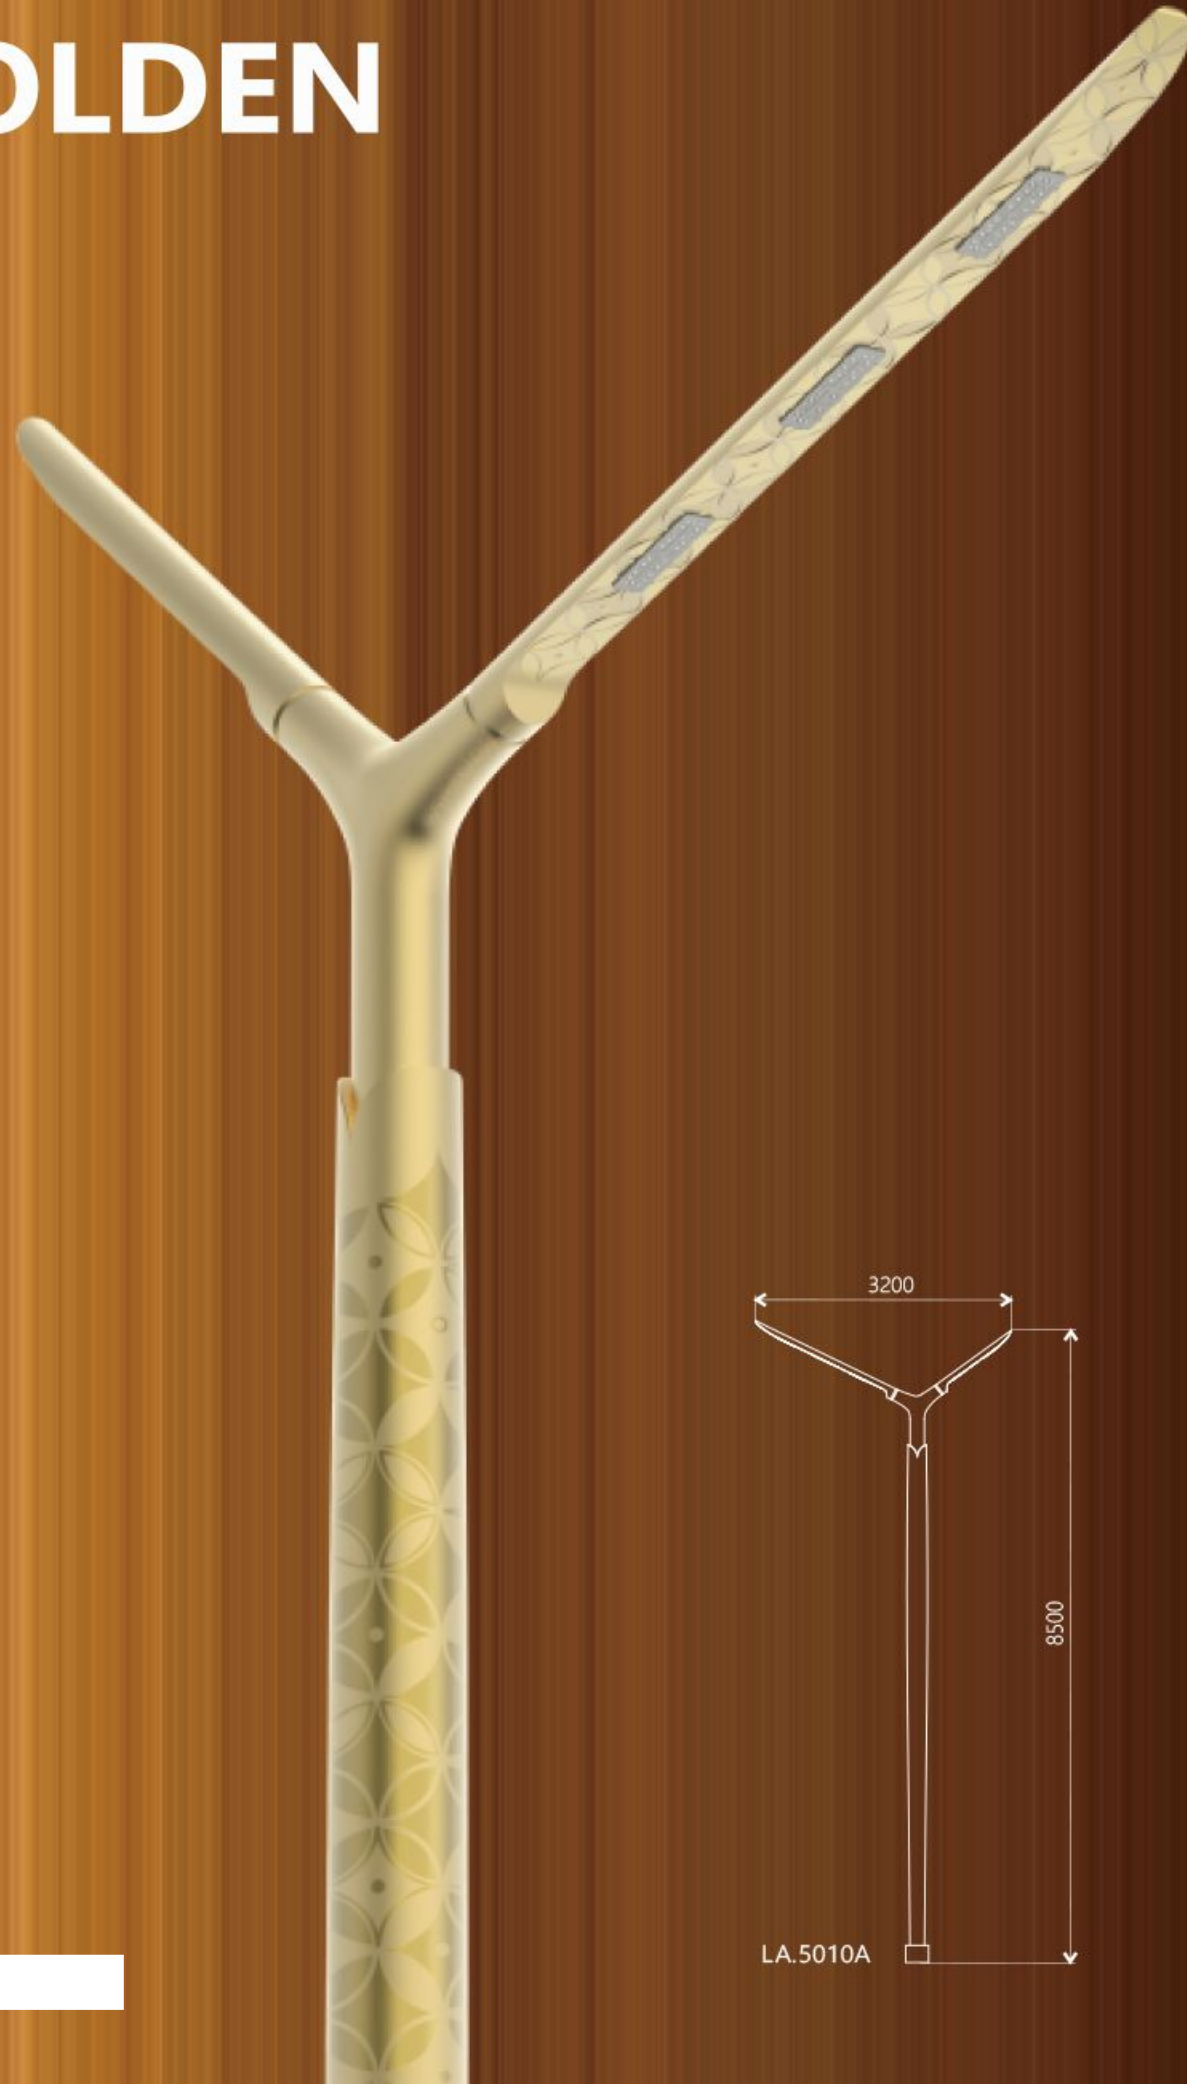

Automatic welding robot

12m high power laser cutting machine

GOLDEN

Road Lamp

HTC -A

Aluminum and stainless steel
Y Shape Light pole

Product Description

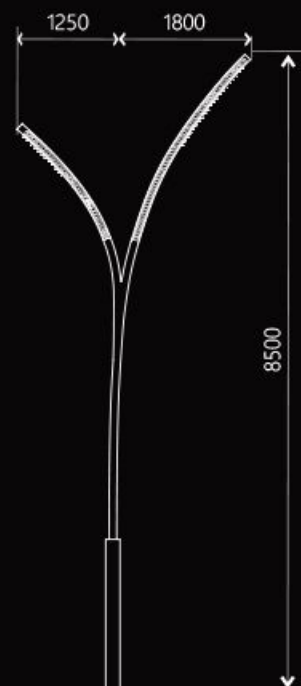

- Y shape bionic design modern simple shape with a sense of future technology
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq Ra70$
- Protection level : IP67

ORCHID

Road Lamp

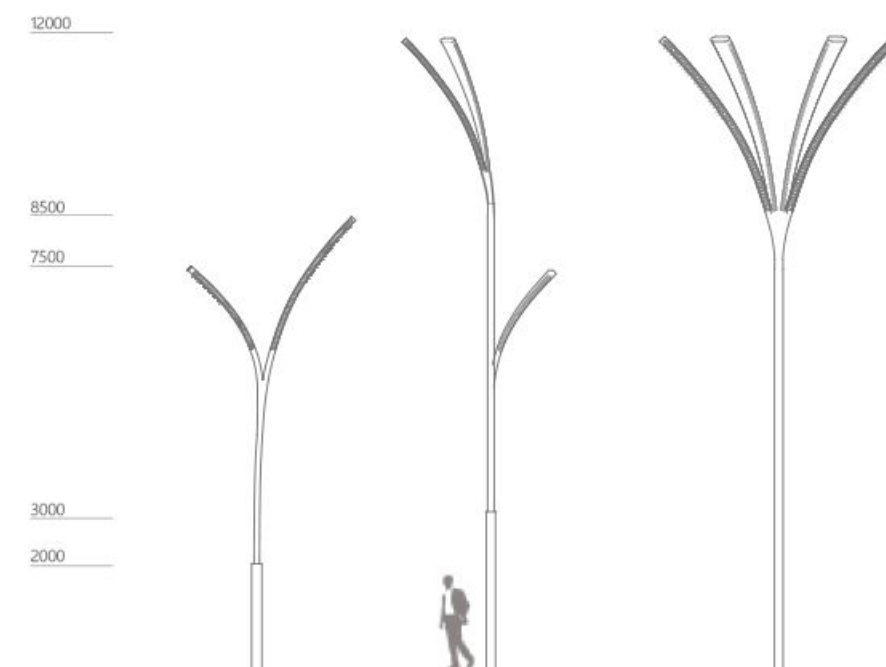

HTC-B

Aluminum curved
Light pole

Product Description

- This lamp has a streamlined shape, the side is decorated with patterns, and the overall dynamic and fashion
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq Ra70$
- Protection level : IP67

CURVING

Road Lamp

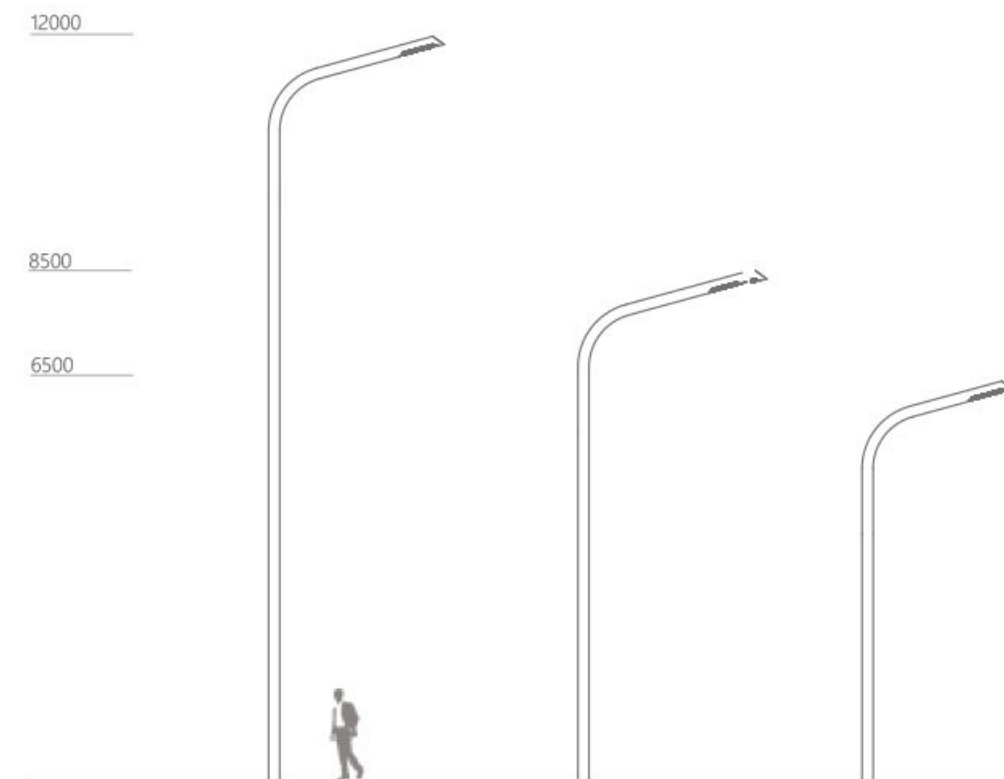

HTC-C

Aluminum single-arm
Light pole

Product Description

- The integrated design of this street lamp, the lamp is perfectly combined with the light pole from thick to thin, modern and concise
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

BURGEON

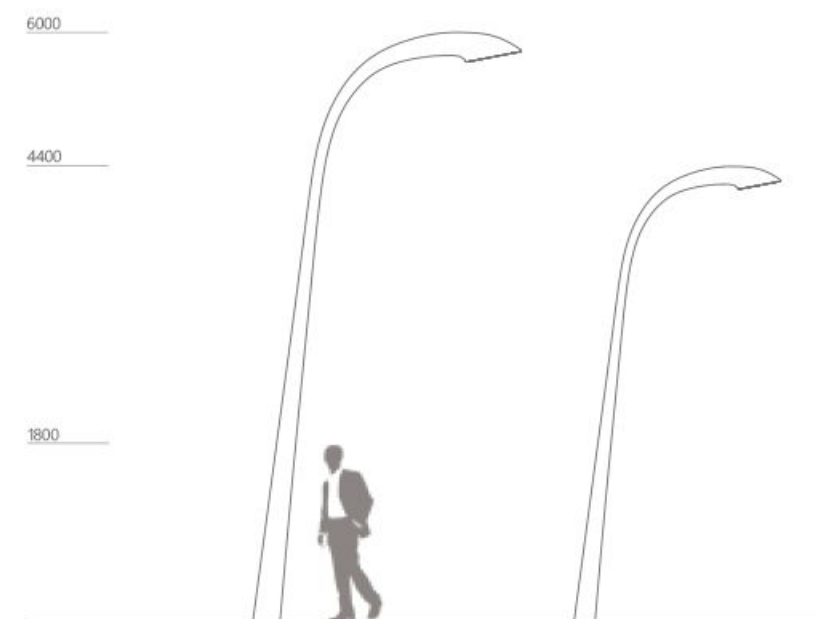

Road Lamp

HTC-D

Aluminum curved
Light pole

Product Description

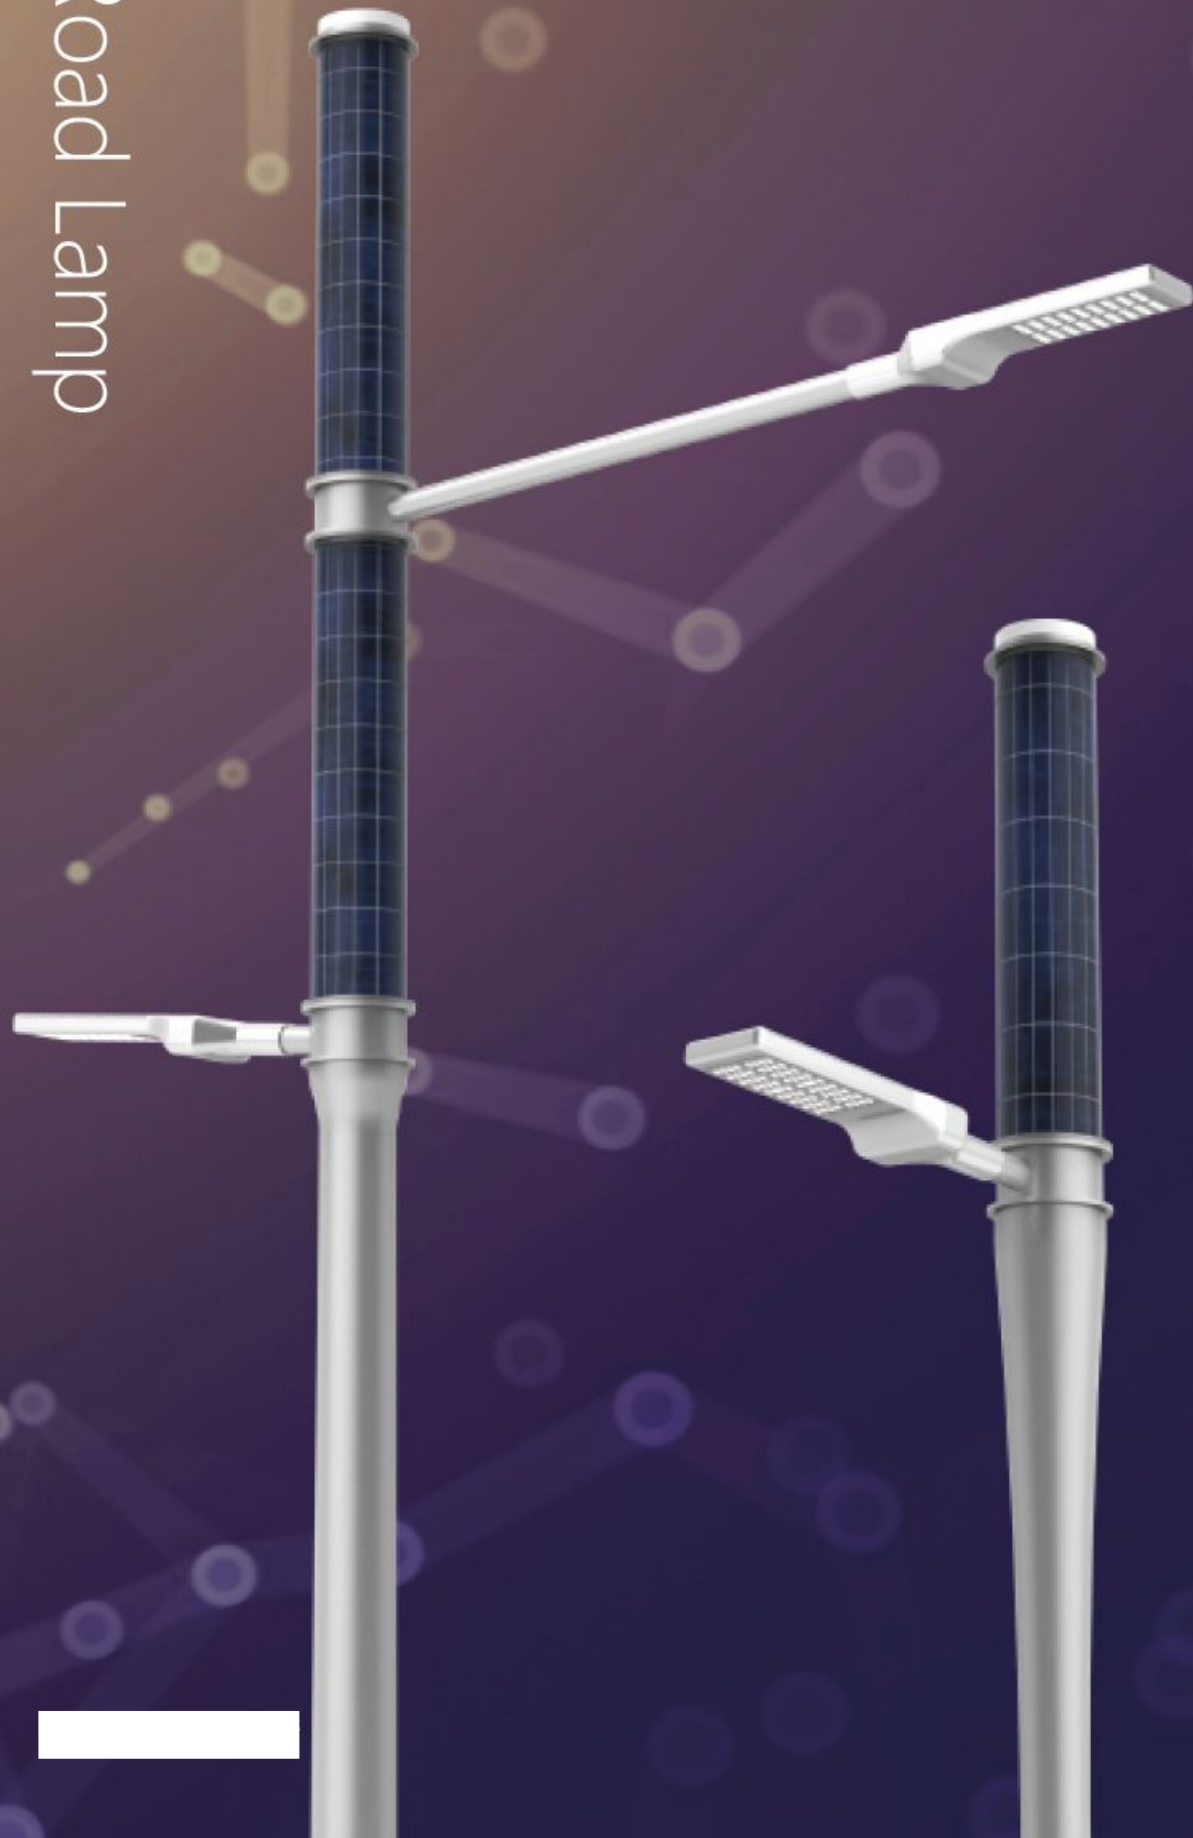

- This lamp is inspired by the young shoots breaking out of the ground, breaking the tradition
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

BAMBOO

Road Lamp

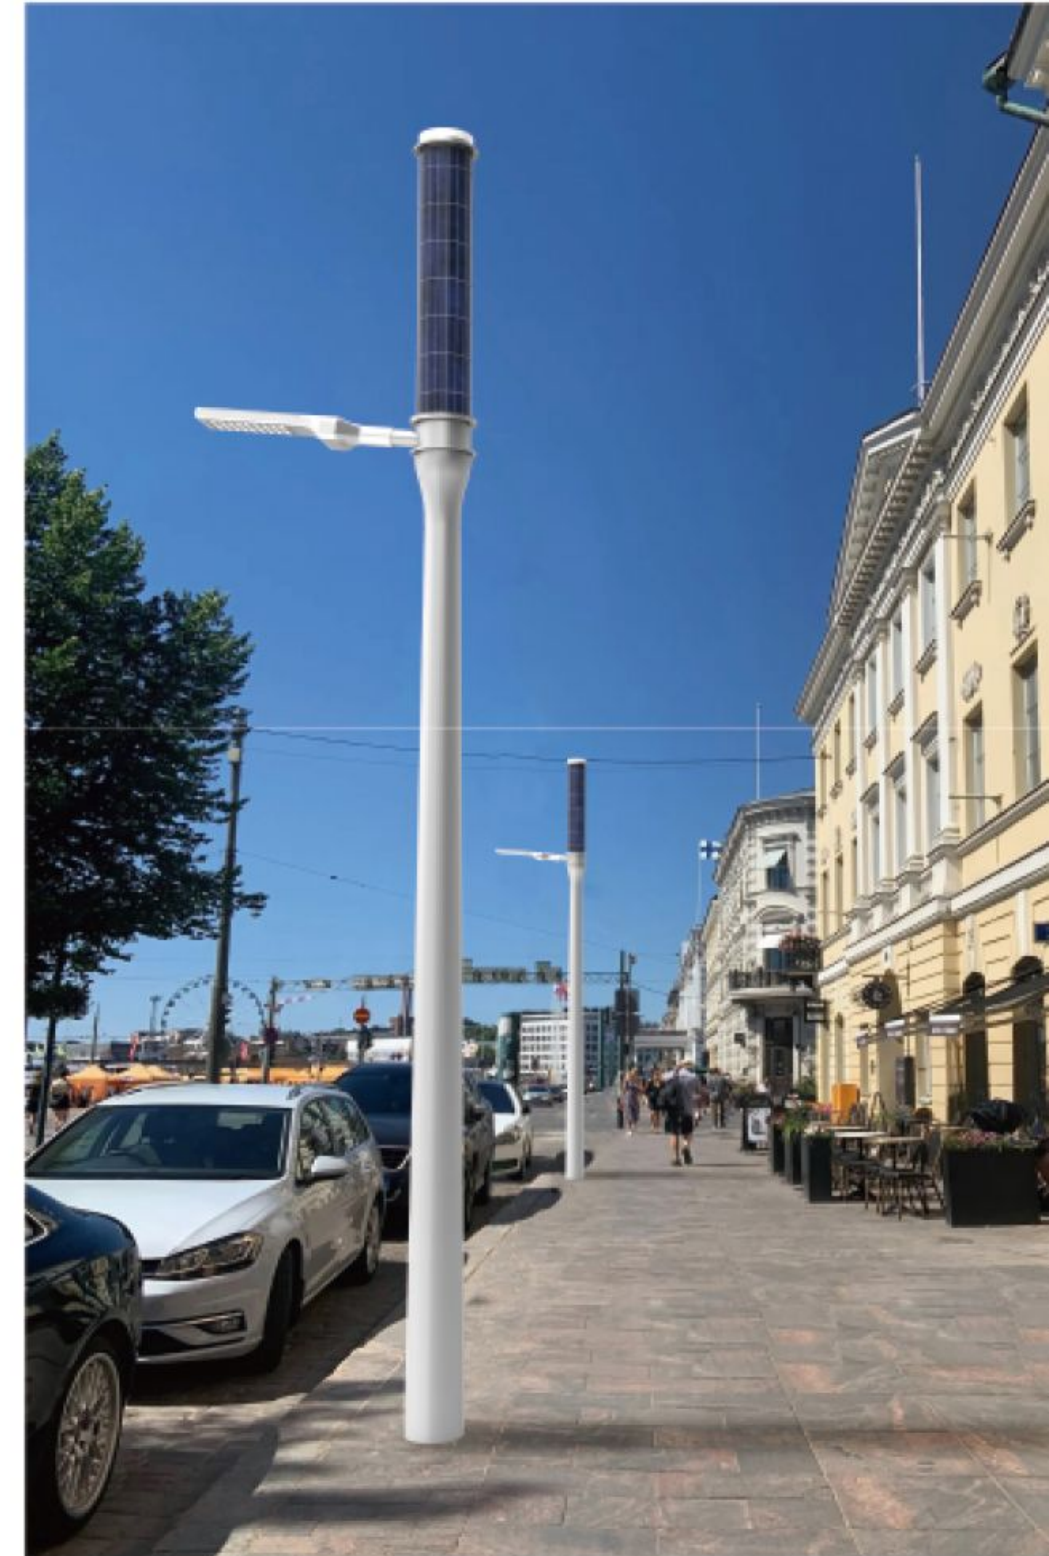

HTC-E

Aluminum and stainless steel
Light pole

Product Description

- This type of lamp adopts bionic modular design, and the shape is taken from bamboo, which means to rise step by step
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

RISE

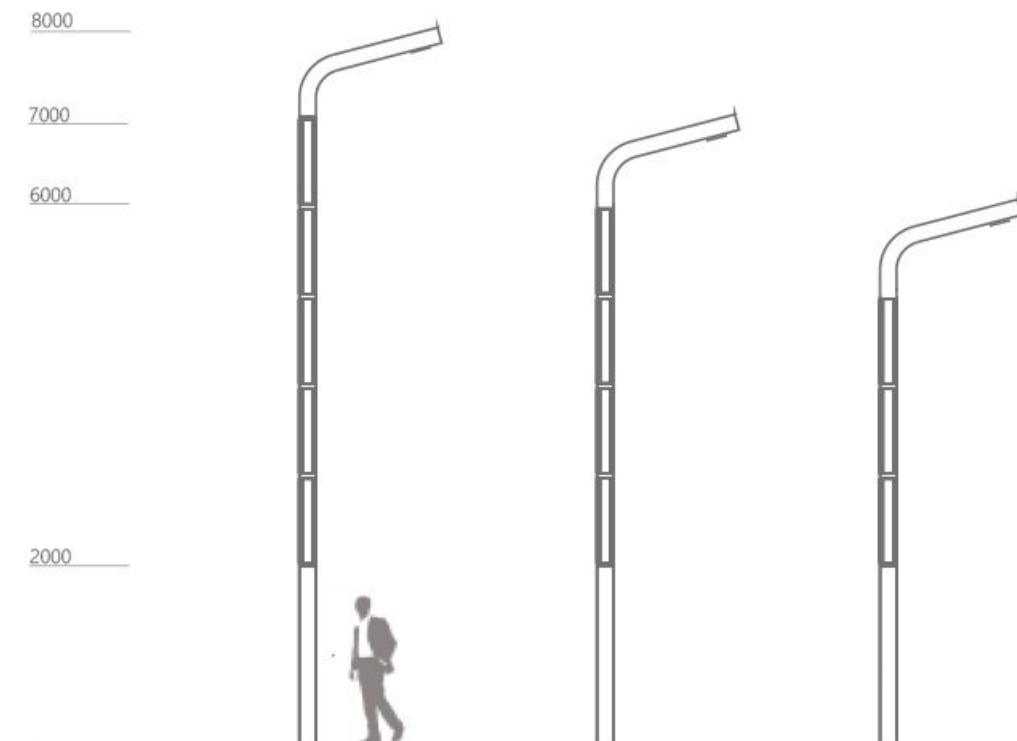

Road Lamp

HTC-F

Aluminum and stainless steel
Light pole

Product Description

- This lamp pole is equipped with solar panels, which is simple and stylish
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq Ra70$
- Protection level : IP67

WAVE

Solar Road Lamp

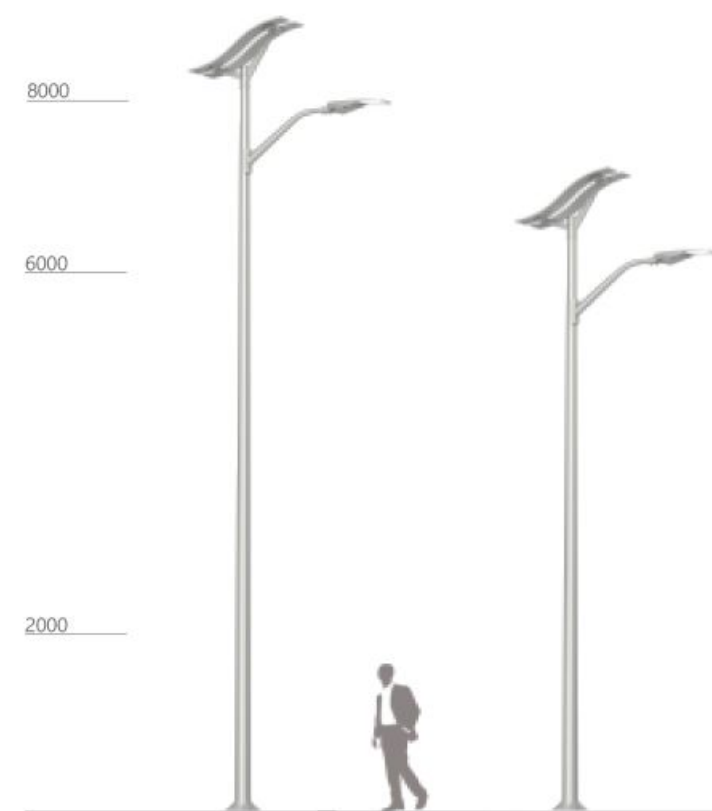

HTC-G

Aluminum and stainless steel
Light pole

Product Description

- This lamp pole is equipped with solar panels, which is simple and stylish
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

GEESE

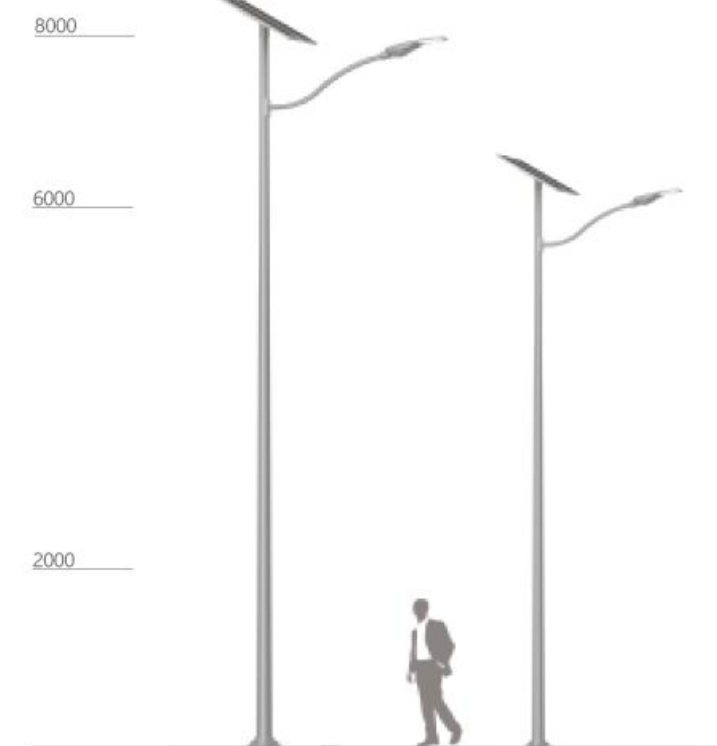

Solar Road Lamp

HTC-H

Aluminum and stainless steel
Light pole

Product Description

- This lamp pole is equipped with solar panels, which is simple and stylish
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

MOON

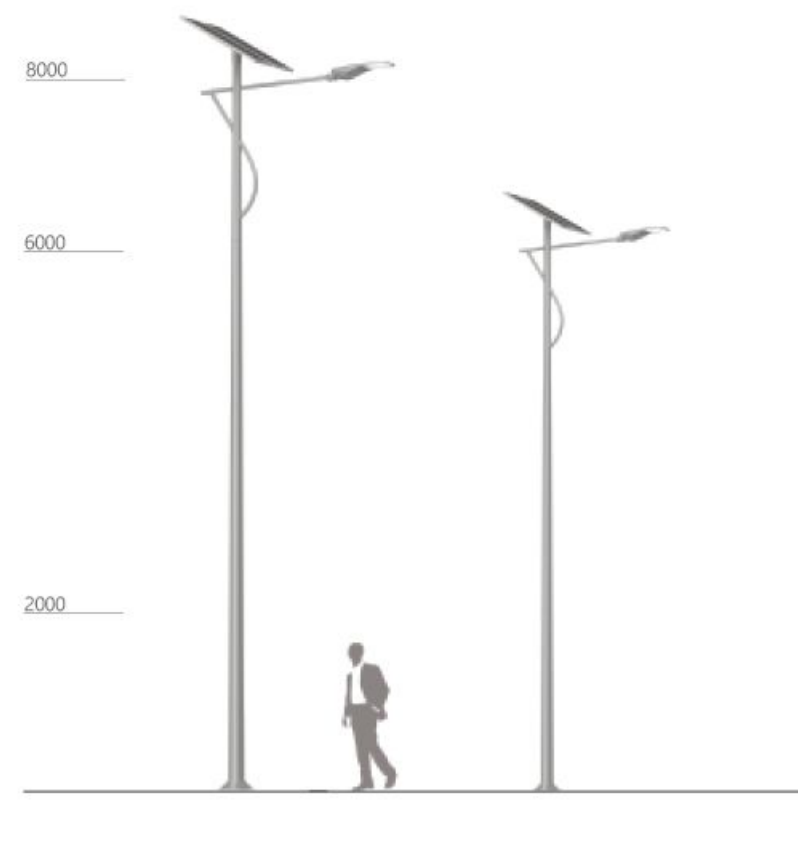

Solar Road Lamp

HTC-I

Aluminum and stainless steel
Light pole

Product Description

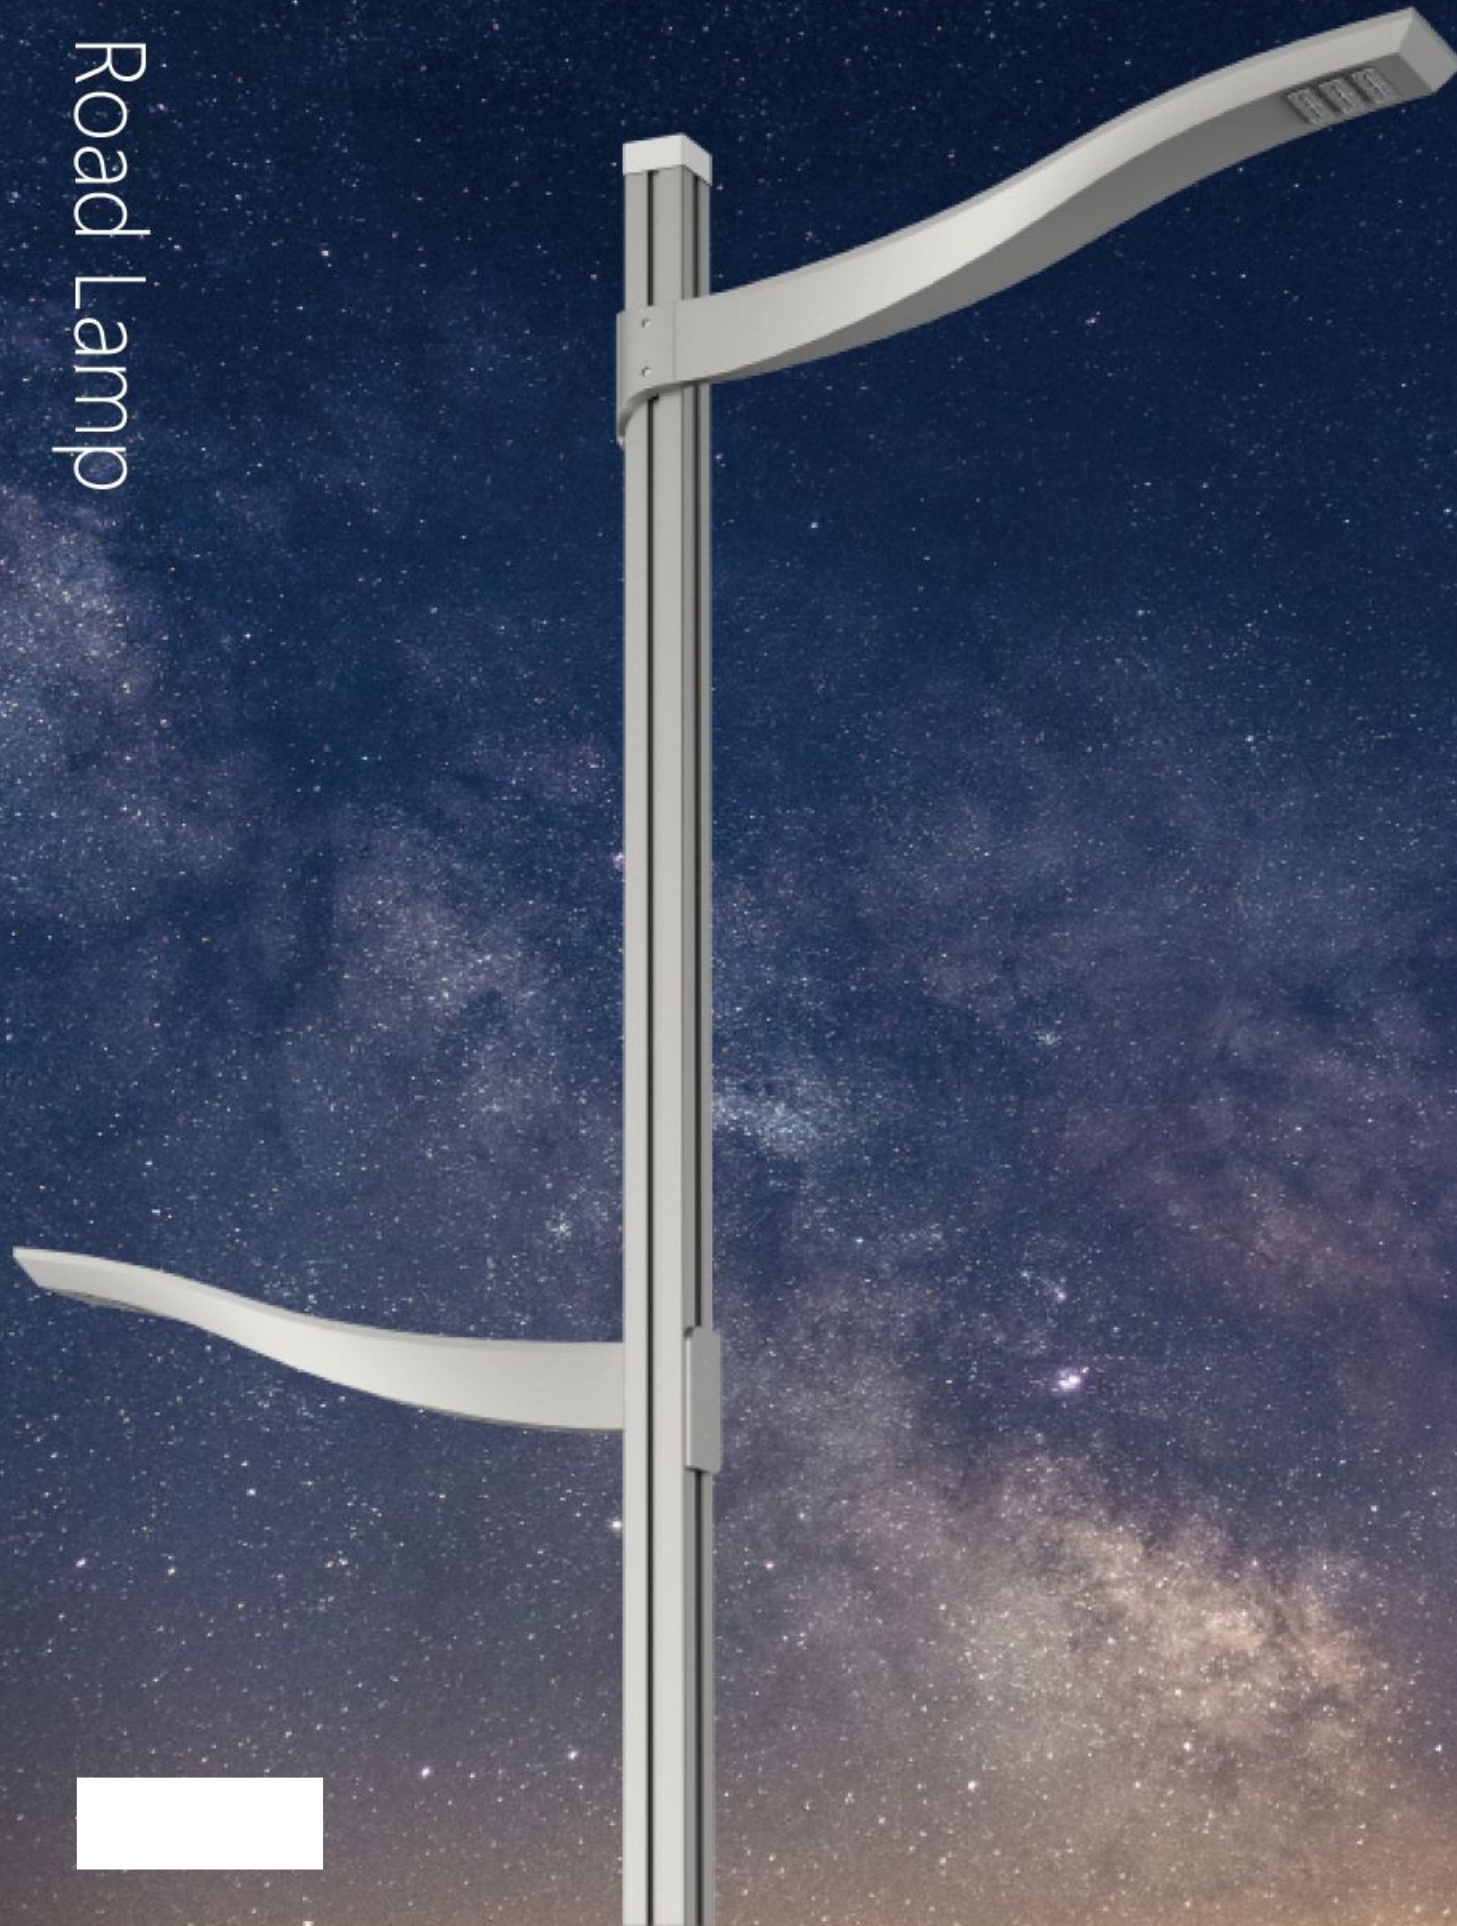

- This lamp pole is equipped with solar panels, which is simple and stylish
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

STARLIGHT

Road Lamp

HTC-J

Aluminum alloy profiles
Light pole

Product Description

- The design of this lamp is extracted from the meteor element, combined with the modular design, the functions can be freely combined
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

CLOUD

Road Lamp

HTC-K

Aluminum alloy profiles
Light pole

Product Description

- The design of this lamp is extracted from the elements of auspicious clouds, combined with the modular design, the functions can be freely combined
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

WING

Road Lamp

HTC-L

Aluminum alloy profiles

Light pole

Product Description

- The design of this lamp is extracted from the wing element, combined with the modular design, the functions can be freely combined
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

ORIOLE

Road Lamp

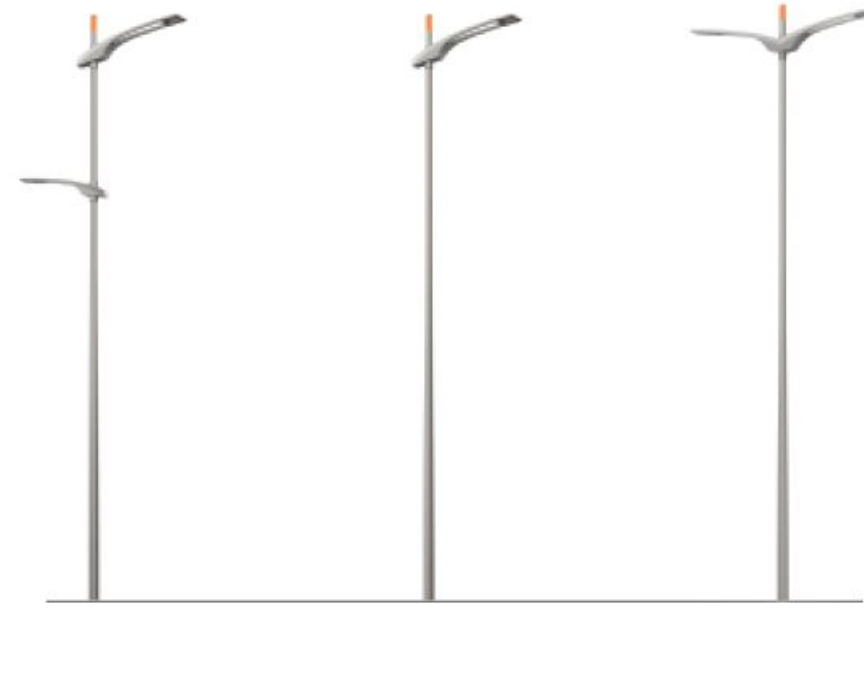

HTC-M

Aluminum and stainless steel
Light pole

Product Description

- The design of this lamp is extracted from the oriole element, the lamp arm lamp is integrated, simple and fashionable
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

SAILS

Road Lamp

HTC-N

Aluminum and stainless steel
Light pole

Product Description

- The design of this lamp is extracted from the sail element, the lamp arm lamp is integrated, simple and fashionable
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

PETAL

Road Lamp

HTC-O

Aluminum drum shape Y Shape Light pole

Product Description

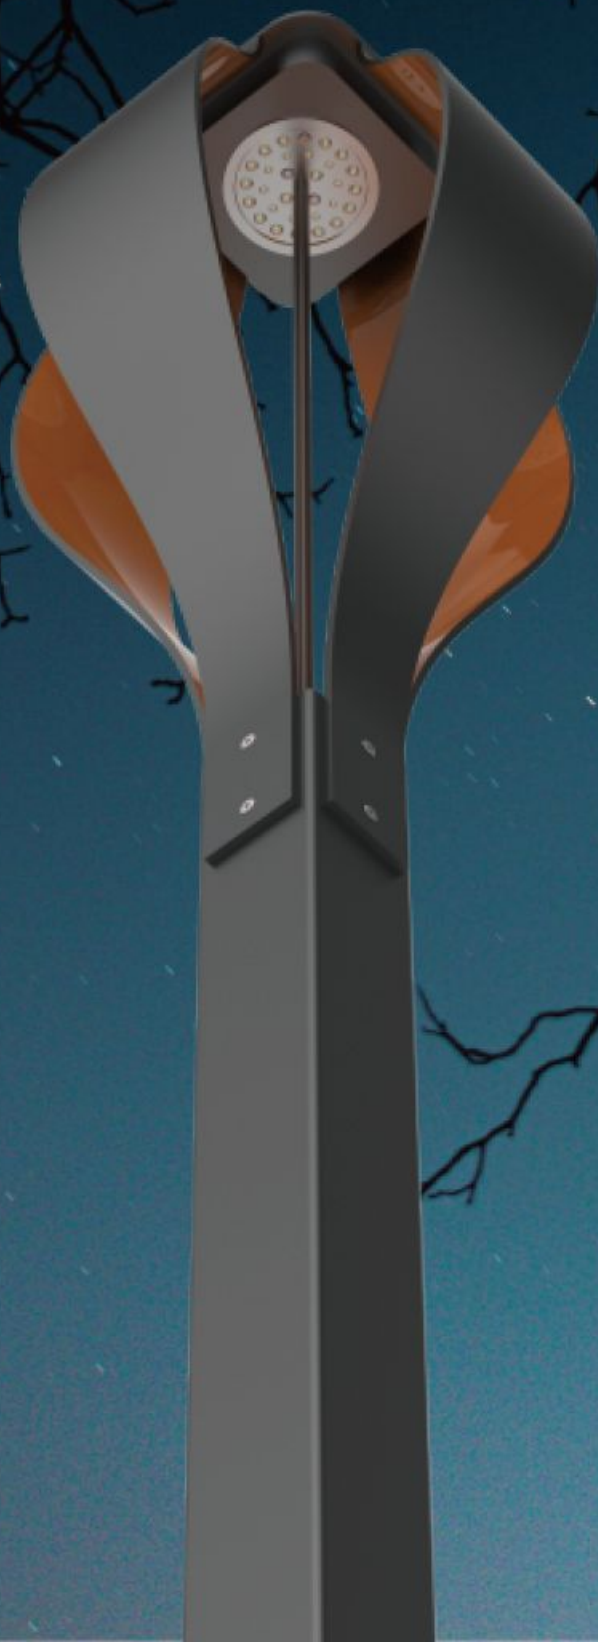

- The design of this lamp is extracted from the petal element, the overall serial design, the overall generous
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

BUD

Garden Lamp

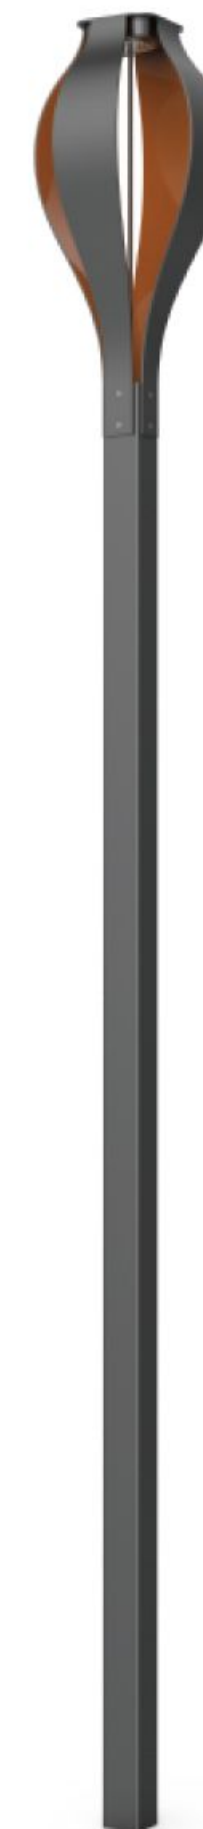

HTC-P

Aluminum and stainless steel
Light pole

Product Description

- The design of this lamp is extracted from the bud element, simple and fashionable
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

TORCH

Garden/Lawn Lamp

HTC-Q

Aluminum alloy profiles
Light pole

Product Description

- The design of this lamp is extracted from the torch element, serialized design, simple and fashionable
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

ZEIT

ZEIT

KEY

Garden Lamp

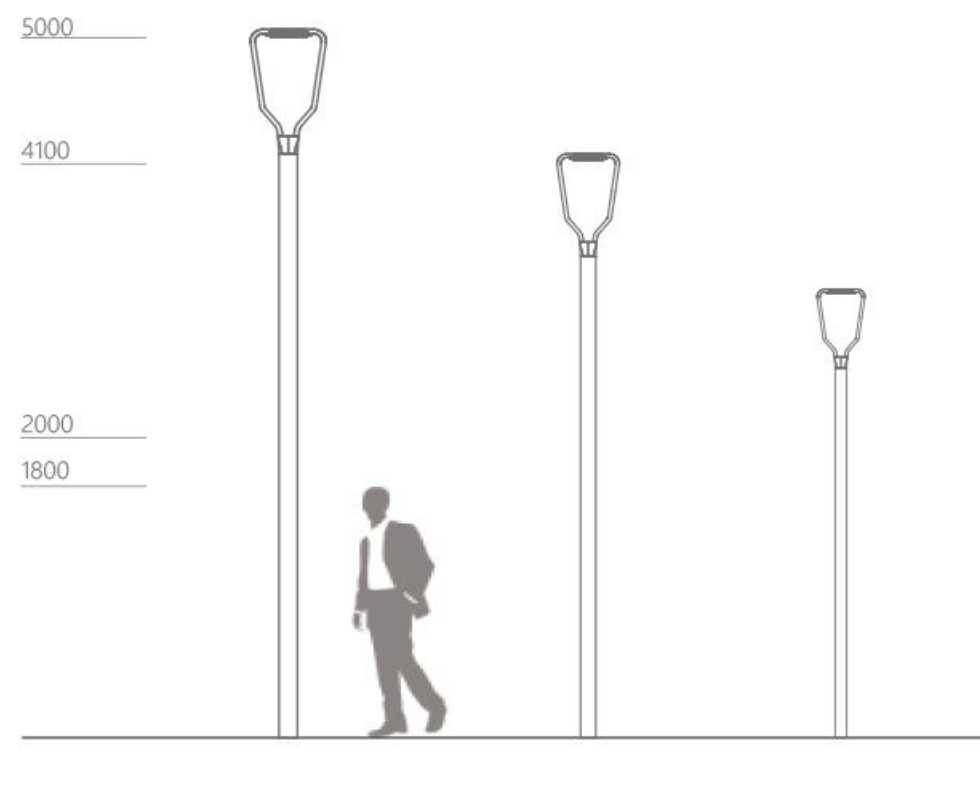

HTC-R

Aluminum and stainless steel
Light pole

Product Description

- The design of this lamp is extracted from the key element, simple and stylish
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

GRASS

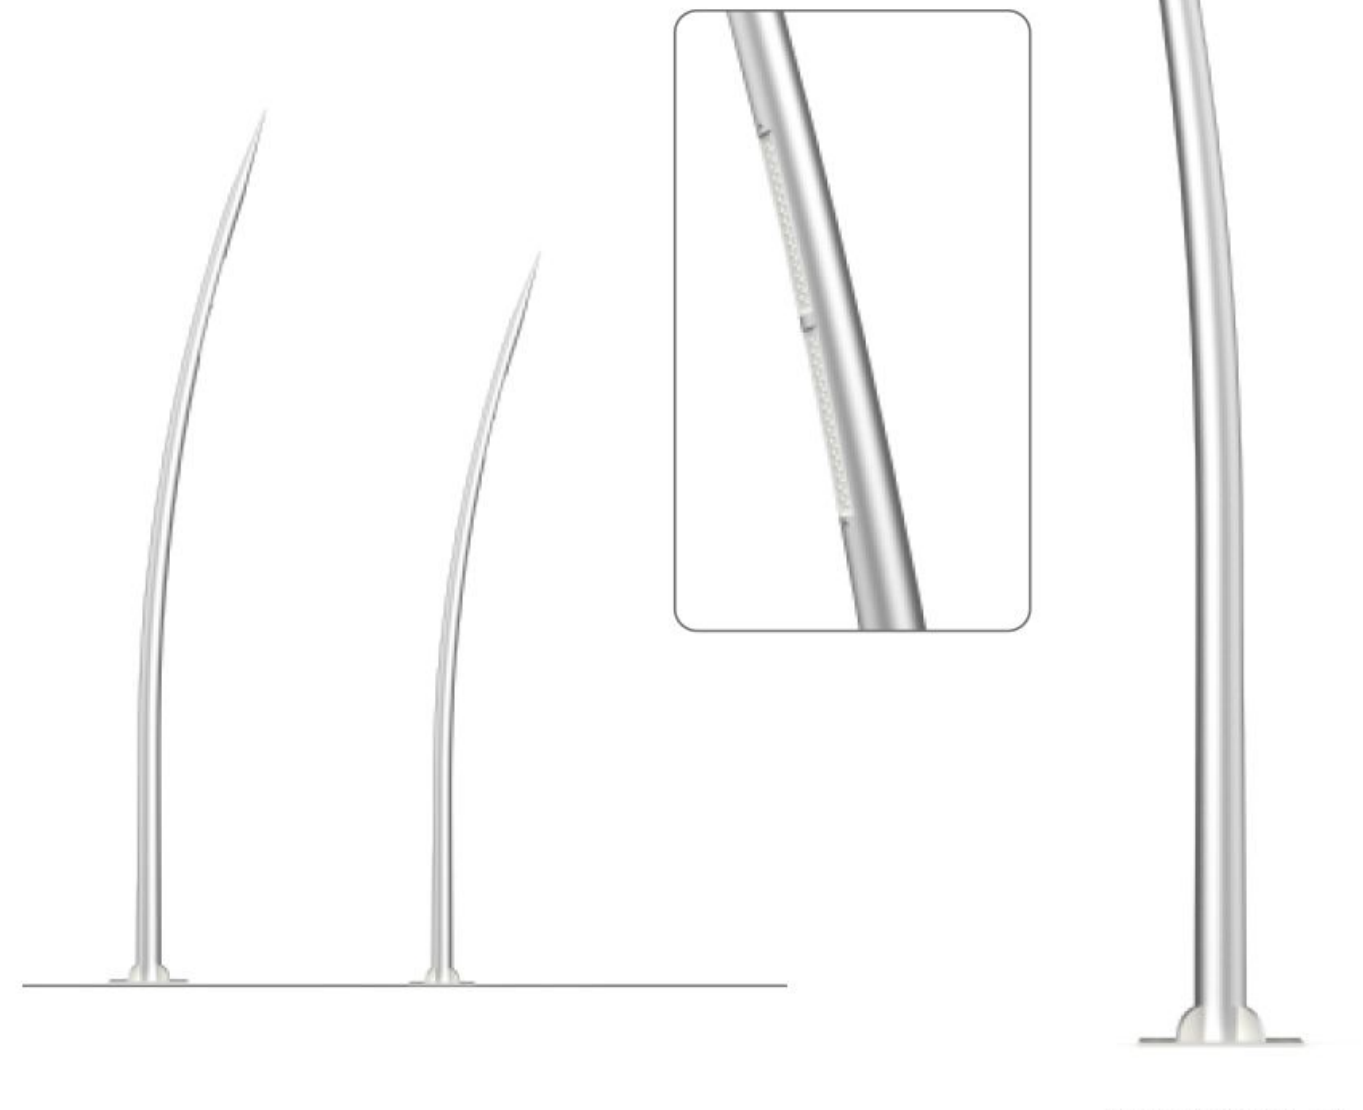

Garden Lamp

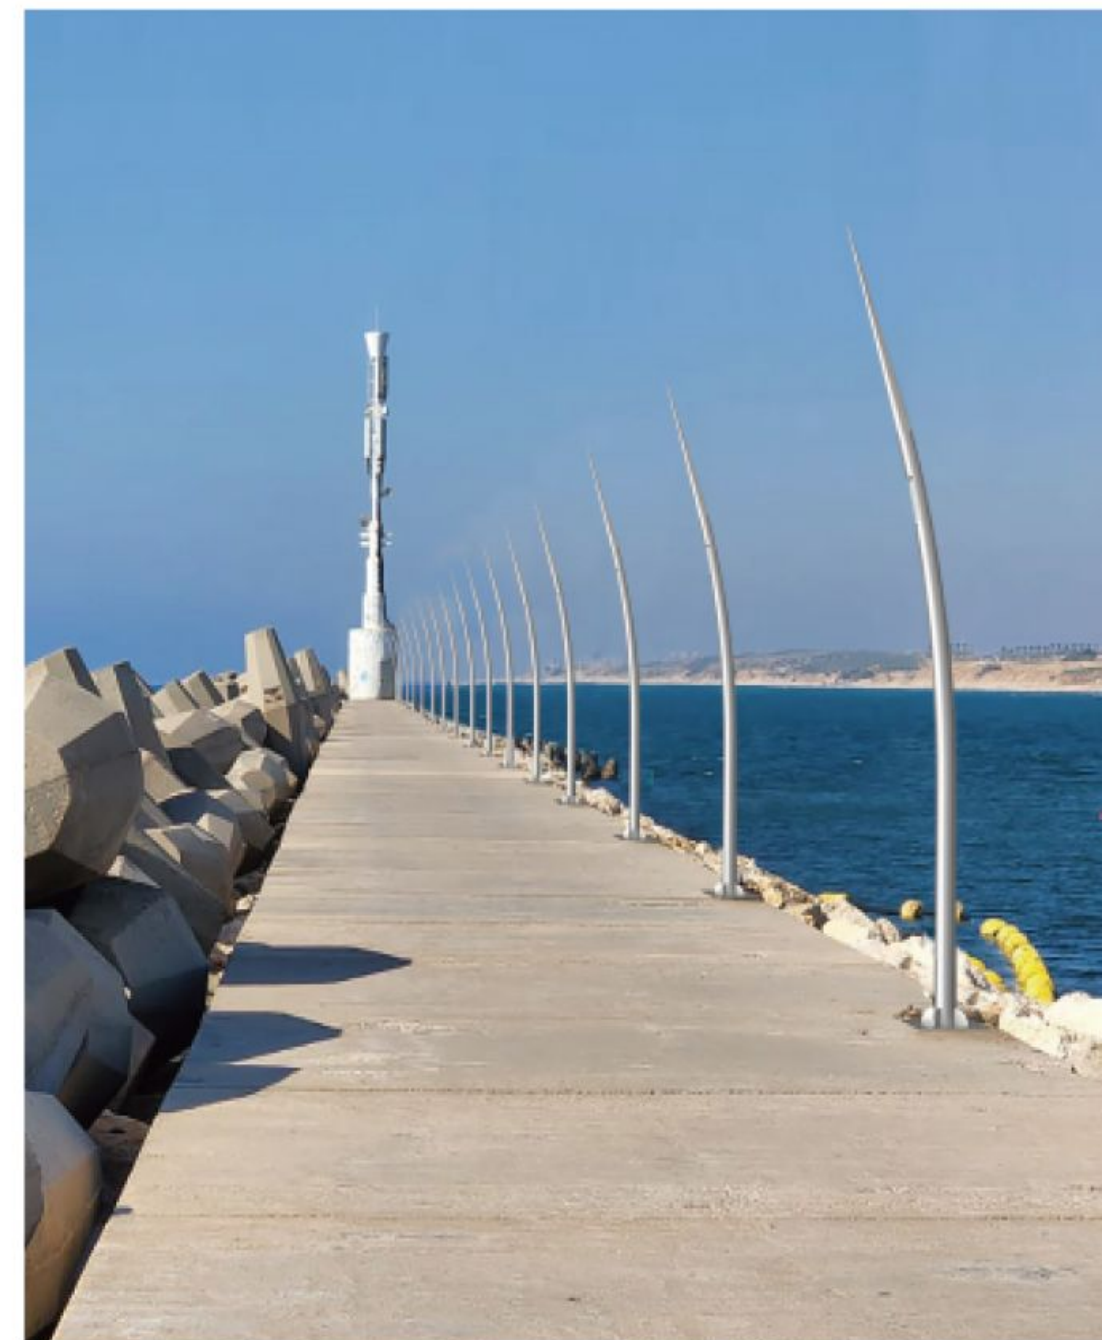

HTC-S

Aluminum curved
Light pole

Product Description

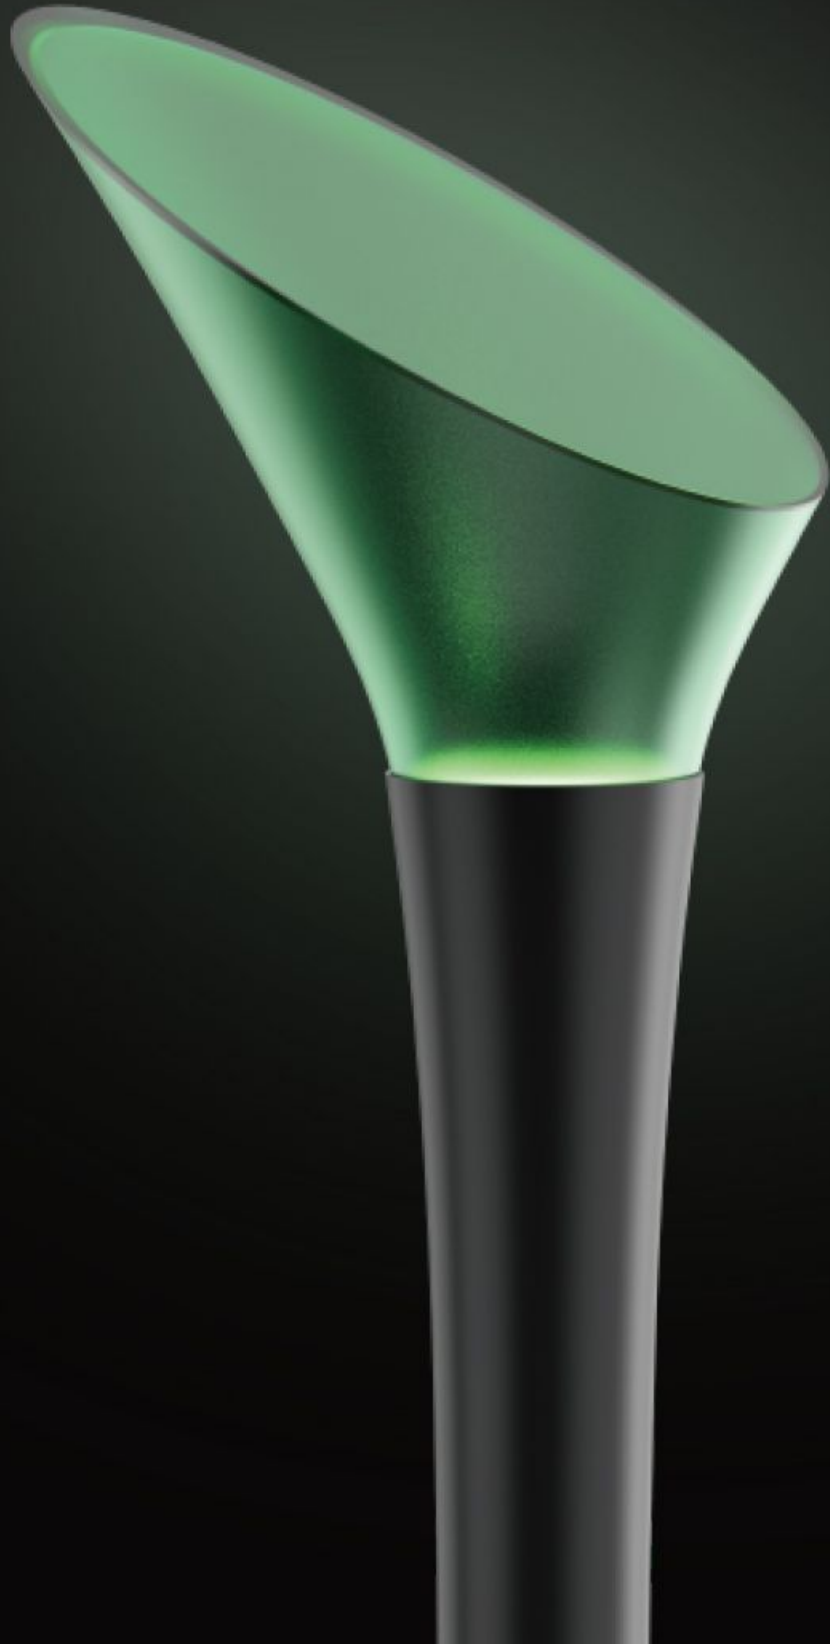

- This lamp design is extracted from grass elements, bionic design, modern and stylish
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

MUSHROOM

Lawn Lamp

HTC-T

Aluminum alloy profiles
Grass Light pole

Product Description

- This lamp design is extracted from mushroom elements, bionic design, modern and stylish
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

KALEIDO

Lawn Lamp

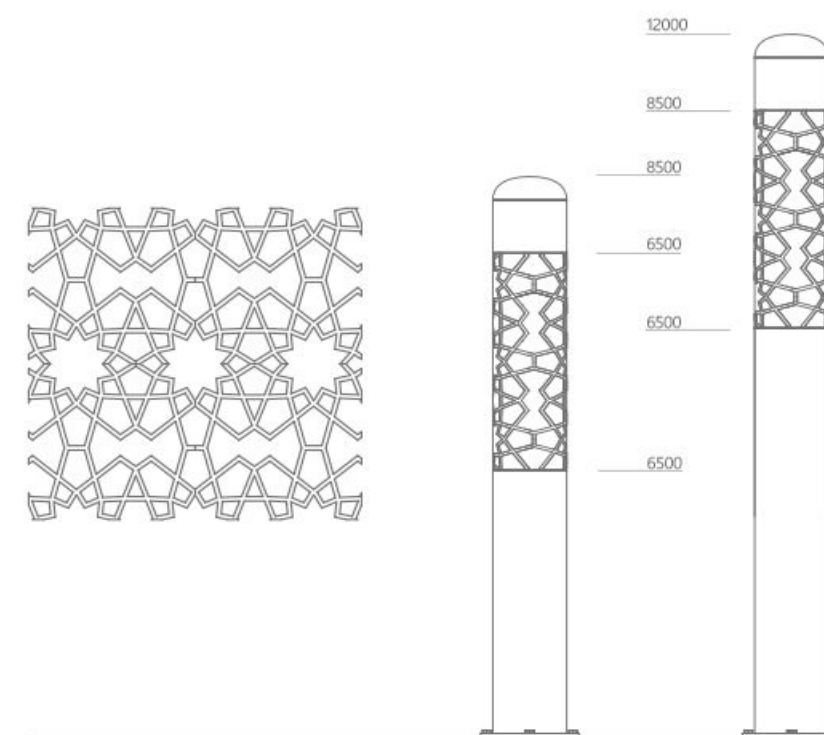

HTC-U

Aluminum And Stainless Steel
Grass Light Pole

Product Description

- This lamp design is extracted from kaleidoscope elements, modern and stylish
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67

Rubik

Lawn Lamp

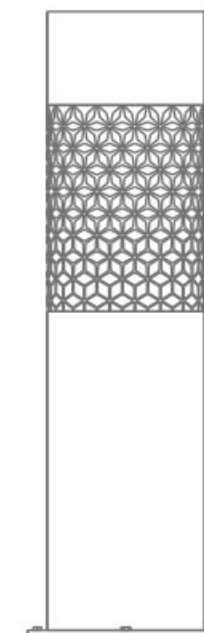

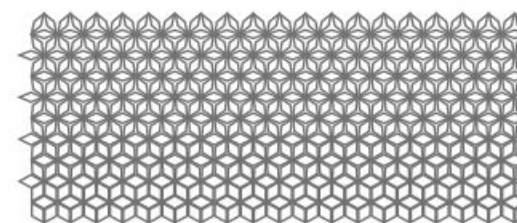

HTC-V

Aluminum And Stainless Steel
Grass Light Pole

Product Description

- This lamp design is extracted from the rubiks cube elements, modern and stylish
- the whole is made of aluminum alloy or stainless steel surface spraying treatment
- light source is LED module 60W/group can adjust the number of units according to road conditions
- color temperature : 3000K-5000K
- color index : $\geq$ Ra70
- Protection level : IP67
